**"81-2-120. Management of wild buffalo or wild bison for disease control.** (1) Whenever a publicly owned wild buffalo or wild bison from a herd that is infected with a dangerous disease enters the state of Montana on public or private land and the disease may spread to persons or livestock or whenever the presence of wild buffalo or wild bison may jeopardize Montana's compliance with other state-administered or federally administered livestock disease control programs, the department

may, under a plan approved by the governor, use any feasible method in taking one or more of the following actions:

(a) The live wild buffalo or wild bison may be physically removed by the safest and most expeditious means from within the state boundaries, including but not limited to hazing and aversion tactics or capture, transportation, quarantine, or delivery to a department-approved slaughterhouse.

(b) The live wild buffalo or wild bison may be destroyed by the use of firearms. If a firearm cannot be used for reasons of public safety or regard for public or private property, the animal may be relocated to a place that is free from public or private hazards and destroyed by firearms or by a humane means of euthanasia.

(c) The live wild buffalo or wild bison may be taken through limited public hunts pursuant to 87-2-730 when authorized by the state veterinarian and the department.

(d) The live wild buffalo or wild bison may be captured, tested, quarantined, and vaccinated. Wild buffalo or wild bison that are certified by the state veterinarian as brucellosis-free may be:

(i) sold to help defray the costs that the department incurs in building, maintaining, and operating necessary facilities related to the capture, testing, quarantine, or vaccination of the wild buffalo or wild bison; or

(ii) transferred to qualified tribal entities that participate in the disease control program provided for in this subsection (1)(d). Acquisition of wild buffalo or wild bison by a qualified tribal entity must be done in a manner that does not jeopardize compliance with a state-administered or federally administered livestock disease control program. The department may adopt rules consistent with this section governing tribal participation in the program or enter into cooperative agreements with tribal organizations for the purposes of carrying out the disease control program.

(e) Proceeds from the sale of live, brucellosis-free, vaccinated wild buffalo or wild bison must be deposited in the state special revenue fund to the credit of the department.

(f) Any revenue generated in excess of the costs referred to in subsection (1)(d)(i) must be deposited in the state special revenue fund provided for in 87-1-513(2).

(2) Whenever the department is responsible for the death of a wild buffalo or wild bison, either purposefully or unintentionally, the carcass of the animal must be disposed of by the most economical means, including but not limited to burying, incineration, rendering, or field dressing for donation or delivery to a department-approved slaughterhouse or slaughter destination.

(3) In disposing of the carcass, the department:

(a) as first priority, may donate a wild buffalo or wild bison carcass to a charity or to an Indian tribal organization; or

(b) may sell a wild buffalo or wild bison carcass to help defray expenses of the department. If the carcass is sold in this manner, the department shall deposit any revenue derived from the sale of the wild buffalo or wild bison carcass to the state special revenue fund to the credit of the department.

(4) The department may adopt rules with regard to management of publicly owned wild buffalo or wild bison that enter Montana on private or public land and that are from a herd that is infected with a contagious disease that may spread to persons or livestock and may jeopardize compliance with other state-administered or federally administered livestock disease control programs.""

**Insert: "Section 4.** Section 81-2-121, MCA, is amended to read:

**"81-2-121. Taking of publicly owned wild buffalo or wild bison that are present on private property -- notice -- supplemental feeding -- penalty.** (1) This chapter may not be construed to impose, by implication or otherwise, criminal liability on a landowner or the agent of a landowner for the taking of a publicly owned wild buffalo or wild bison that is suspected of carrying disease and that is present on the landowner's private property and is potentially associating with or otherwise threatening the landowner's livestock if:

(a) the landowner or agent notifies or makes a good faith effort to notify the department in order to allow as much time as practicable for the department to first take or remove the publicly owned wild buffalo or wild bison that is present on the landowner's property;

(b) the landowner or agent makes a good faith effort to notify the department that a taking has occurred and to retain all parts for disposal by the department; and

(c) the landowner or agent is not in violation of subsection (2).

(2) A person may not intentionally provide supplemental feed to game animals in a manner that results in artificial concentration of game animals that may potentially contribute to the transmission of disease. A person who violates this subsection is guilty of a misdemeanor and is subject to the penalty provided in 87-1-102(1). This subsection does not apply to supplemental feeding activities conducted by the department for disease control purposes.""

(b) hold the estray and care for the estray in the cheapest and most practicable manner for at least 10 days and not more than 30 days after public notice is published as provided in subsection (2). During the holding period, the stock inspector shall advertise that the estray is being held and that unless the estray is claimed by the owner, the stock inspector will on a date specified in the notice sell the estray at a public auction to the highest bidder for cash.

(2) The notice must be published in the newspaper doing the county printing of the county in which the estray is found and on the department's website and in each livestock market brand office and county sheriff's office in the state.
